Dear Mr. Ragan,

This letter is in response to your letter stating a concern with the Amended 30 Day Post Election Report filed by Cole for Congress.

In your letter dated February 6, 2003, your report indicated that the campaign must attempt to obtain the occupations and name of employer for all individuals who contribute more than \$200 in a calendar year. I am enclosing a copy of the letter we send out within 30 days upon receipt of a contribution missing this information. In this letter we clearly ask for the missing information without soliciting a contribution; inform the contributor of the requirements of federal law of the reporting of such information; and include a pre-addressed envelope. If information is not received in a timely manner we send out a second request for the missing information. Any information that we receive will be amended at a later date or will be a memo item in another report.

The committee has taken the necessary steps so this will not happen in the future. If you have any further questions please let us know.

Sincerely,

Rick Ronald Nagel  
Cole for Congress
